OASIS HEALTH SERVICES

Anja Stodtmeister:
CEO

Why we joined the Chamber:

At Oasis we recognize the importance of the Business Chamber and their role in the promoting small business like ours, we appreciate the opportunity to create awareness of our services.

We are passionate about elderly care and making a difference in the community, assisting families to look after their loved ones, keeping them within the family and in the community for as long as possible.

“Taking care of your loved ones” – so you can focus on your work responsibilities.” We are proud to have made a big difference in many clients and their family's lives, by creating a safe and caring environment, and implementing the Active Aging Program.

About Oasis Health Services :

Oasis Health Services was launched in response to the growing need for care of the elderly and disabled persons nationally, and within NMB communities. Many modern nuclear working families do not have the capacity to care for their aging relatives at home and very few households have only one working family member. Therefore, caring for relatives at home often becomes very stressful and at times creates unsafe conditions.

Although Oasis started off as a niche' market as an Elderly Day Care Center, we identified a wider need within NMB and we now offer three services:

- Oasis Elderly Care Center: offers clients who are living alone or with working family members a safe and caring environment (Monday – Friday), supervised by trained and experienced healthcare professionals. We welcome Alzheimer & Dementia clients. Working in affiliation with the Department of Social Development and Social Workers.
- Caregiver Training: providing accredited Skills Development Training Programs for school leavers and adult learners, empowering them to generate an independent income – at the same time upskilling the community and improving the quality of life for elderly persons within the community. Working in affiliation with HWSETA and QCTO.
- Oasis Recruitment services: Licensed Individual Staffing Practitioner, our team assist our clients to source suitable candidates, to meet the recruitment needs of national healthcare companies. Working in affiliation with APSO and DOL (PEA).
